Results of Palestinian Public Opinion Poll
No. 49
11-13 September 2014

Background

After more than fifty days of war on the Gaza Strip, a long term ceasefire agreement was reached under the auspices of Egypt. Egypt called upon both the Israelis and the Palestinians to abide by a complete ceasefire on both sides that will coincide with the opening of all crossings between the Gaza Strip and Israel. The ceasefire and the opening of the crossings should facilitate the passage of humanitarian and relief aids and construction materials. The fishing zone will be open starting from a range of 6 nautical miles. Indirect negotiations between the two sides to resolve the other subjects will be resumed within a month of the implementation of the ceasefire.

After more than seven years of Palestinian division and as a result of the negotiations that took place between Fateh and Hamas, an agreement to end the division was reached. Three files were submitted to the reconciliation committee. The first addressed the formation of a national technocrat government with all details related to its implementation and tasks. According to the agreement, a national unity government was formed which was favorably received on the local, regional and international levels. The second file is related to the PLO Committee, all subjects pertaining to the reformation of the Palestinian National Council (PNC) and the tasks related to the PLO Committee as a temporary frame of a leadership for the Palestinian people. The third file discusses the Presidential and PLC elections defining their dates, principles and the bases on which they will be conducted.

The Results

Following are the results of the Palestinian Public Opinion Poll no. 49 conducted by the Center for Opinion Polls and Survey Studies at An-Najah National University during the period from 11-13 September 2014. **The University sponsors all polls conducted by its Center.**

This poll undertakes the Palestinian public opinion on the new political realities, the results of the last war on the Gaza Strip, the boycott campaign and the possibility of conducting presidential, legislative and local council elections, in addition to the political affiliations of Palestinian people.

The sample included 1360 persons whose age group is 18 and above and who have the right to vote. The enclosed questionnaire was distributed on 860 persons from the West Bank and 500 persons from the Gaza Strip. The sample was drawn randomly and the margin of error is about $\pm 3\%$; still 2.4% of the members of the sample refused to answer the questionnaire.

The opinions represented in the results reflect those of the study; they do not, by any means, represent the opinion of An-Najah National University.
