YOUR BOOKING APP FOR
SPECIAL MOMENTS

PROJECT IDEA

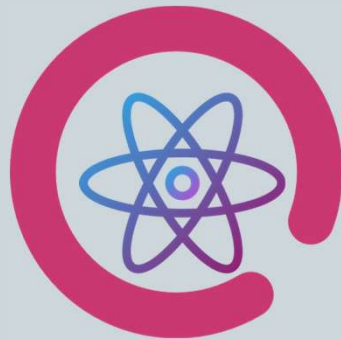

Users can find and chat with photographers, choose session locations, and schedule appointments.

Photographers can showcase their work, manage bookings, and communicate with clients.

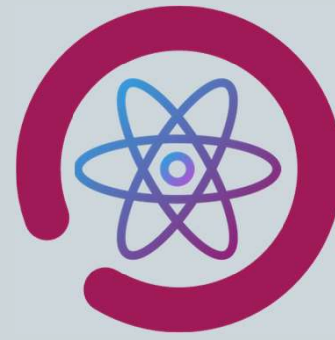

The app ensures a smooth process with features like favorites and calendar scheduling.

The goal is to connect clients with photographers quickly and efficiently!

CLIENT

The screenshot shows a mobile application interface for a photo studio. At the top, there is a dark red header with a camera icon, the text 'Pic-A-Boo', a search bar containing 'Search for friend, post or video', and navigation options 'Places' and 'Appointment'. The main area is a calendar grid for the week of Sunday 29 to Saturday 4. The vertical axis shows time slots from 10:30 AM to 4:30 PM. A modal form titled 'Photo session information' is overlaid on the calendar. The form contains the following fields: 'Full Name:' with a text input; 'Photo session details:' with a text input; 'Location:' with a text input; 'Phone number:' and 'Email:' with separate text inputs; and a dark red 'Save' button at the bottom. The calendar shows several appointment slots in light blue and dark blue, with a mouse cursor hovering over a slot on Monday 30 between 11:00 AM and 12:00 PM.

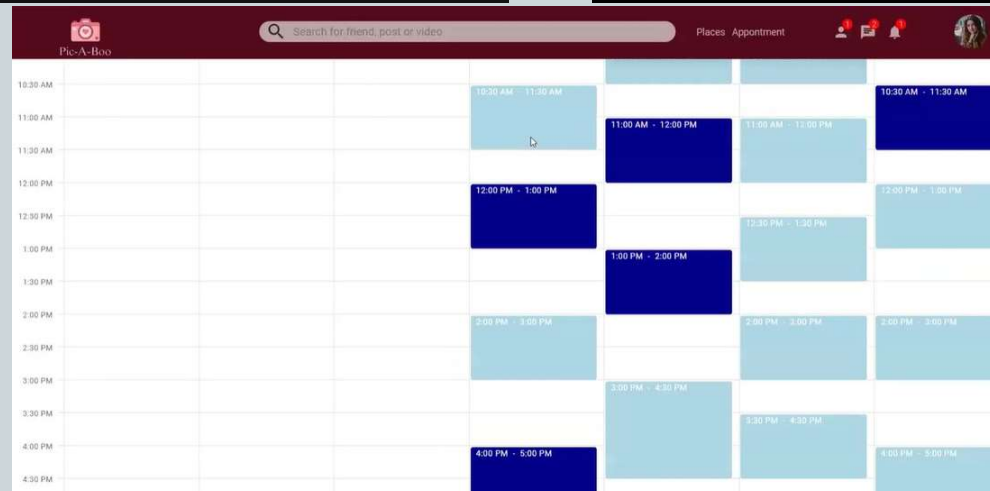

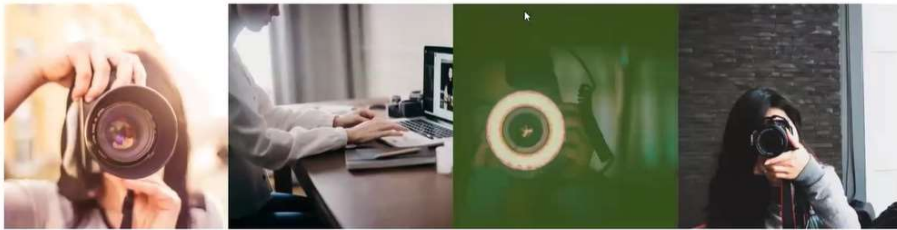

This screenshot shows the same mobile application interface as the previous one, but with a confirmation dialog box overlaid. The dialog box is white with a dark red border and contains the text 'Do you want to delete this appointment?'. Below the text are two buttons: a dark red 'Ok' button and a dark red 'Cancel' button. The calendar grid in the background is partially visible, showing the same week and time slots as the previous screenshot. The mouse cursor is now positioned over the 'Ok' button.
