— COMMUNITY —

Project Idea

HomeGrown is an integrated craft community platform that brings customers, artisans, exhibition owners, and administrators together in one place.

The platform helps artisans promote and manage their handmade products, receive orders, communicate with customers, and participate in exhibitions. It also allows customers to discover unique handmade items, interact with products, follow artisans, place orders, and explore exhibitions.

For exhibition owners, HomeGrown provides tools to create exhibitions, manage participation requests, and invite suitable artisans, while administrators can monitor and manage the overall platform.
