NABLUS EXHIBITION CENTER

HAMMAM AWAD

Nablus is considered the economic capital of Palestine and is a hub for various traditional and modern industries. It has been and still remains the recipient of industrial and commercial prosperity in the country

The main goal of designing an exhibition center in the city of Nablus, being the economic capital, is to enhance the economic activity of the city and promote tourism by creating a unique visitor experience through the exhibition's visual appeal and enjoy-ment of the surrounding green areas
