

Do Re Mi

Music Center

Introduction

Implementation

Architecture

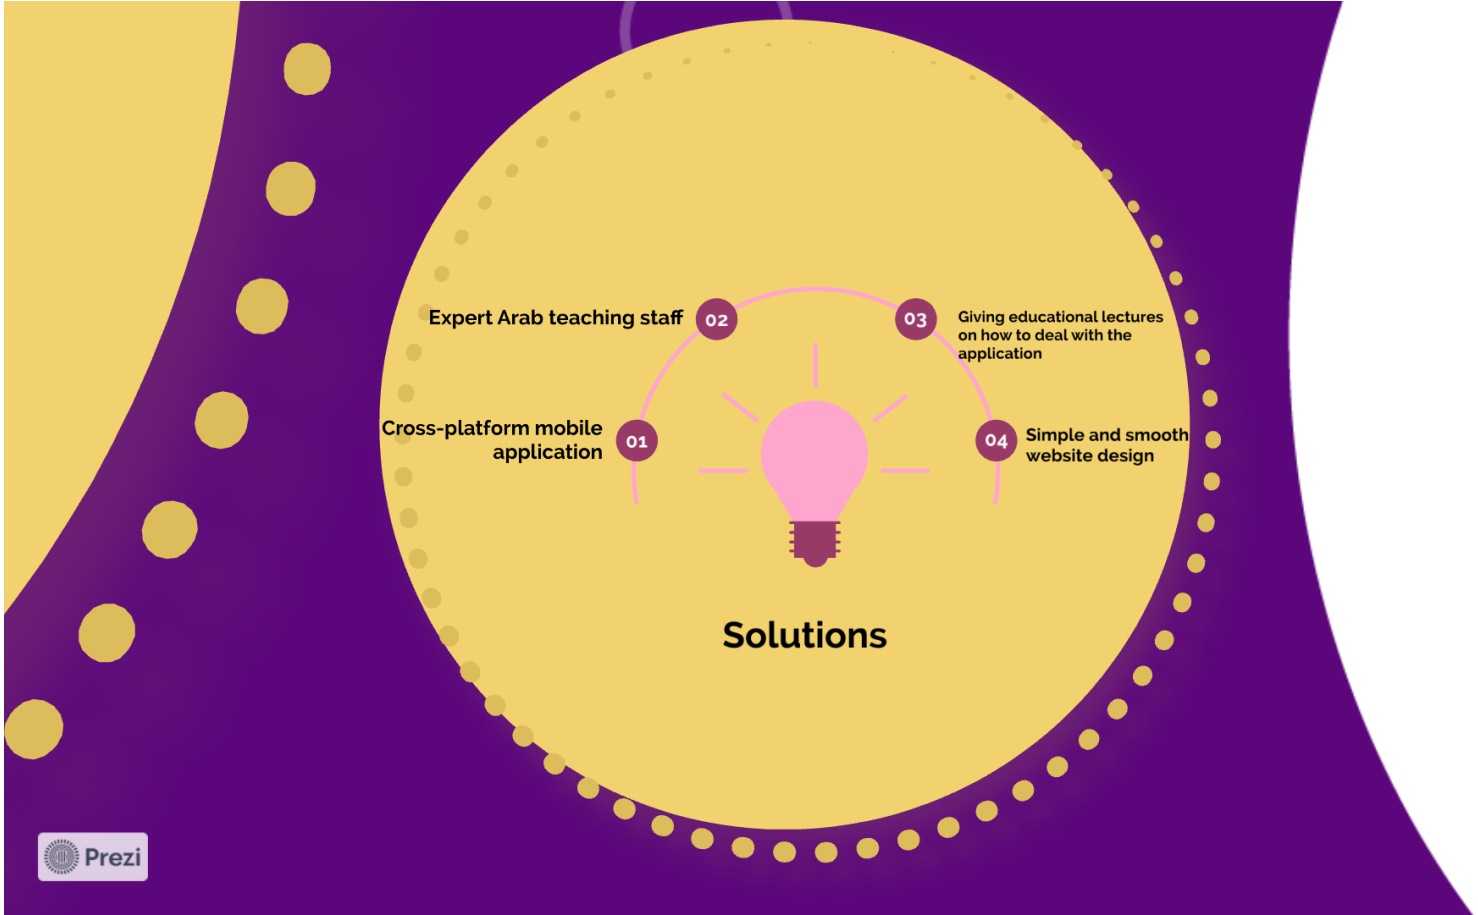

Final Results

Team

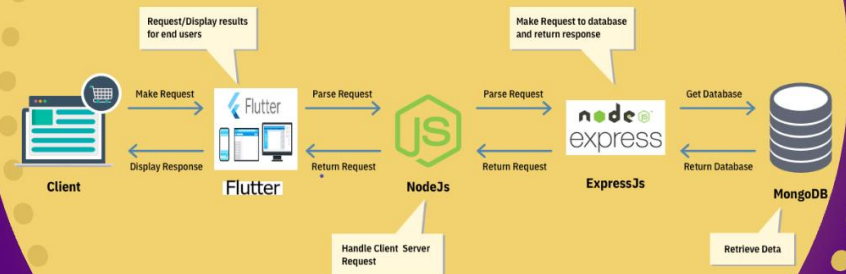

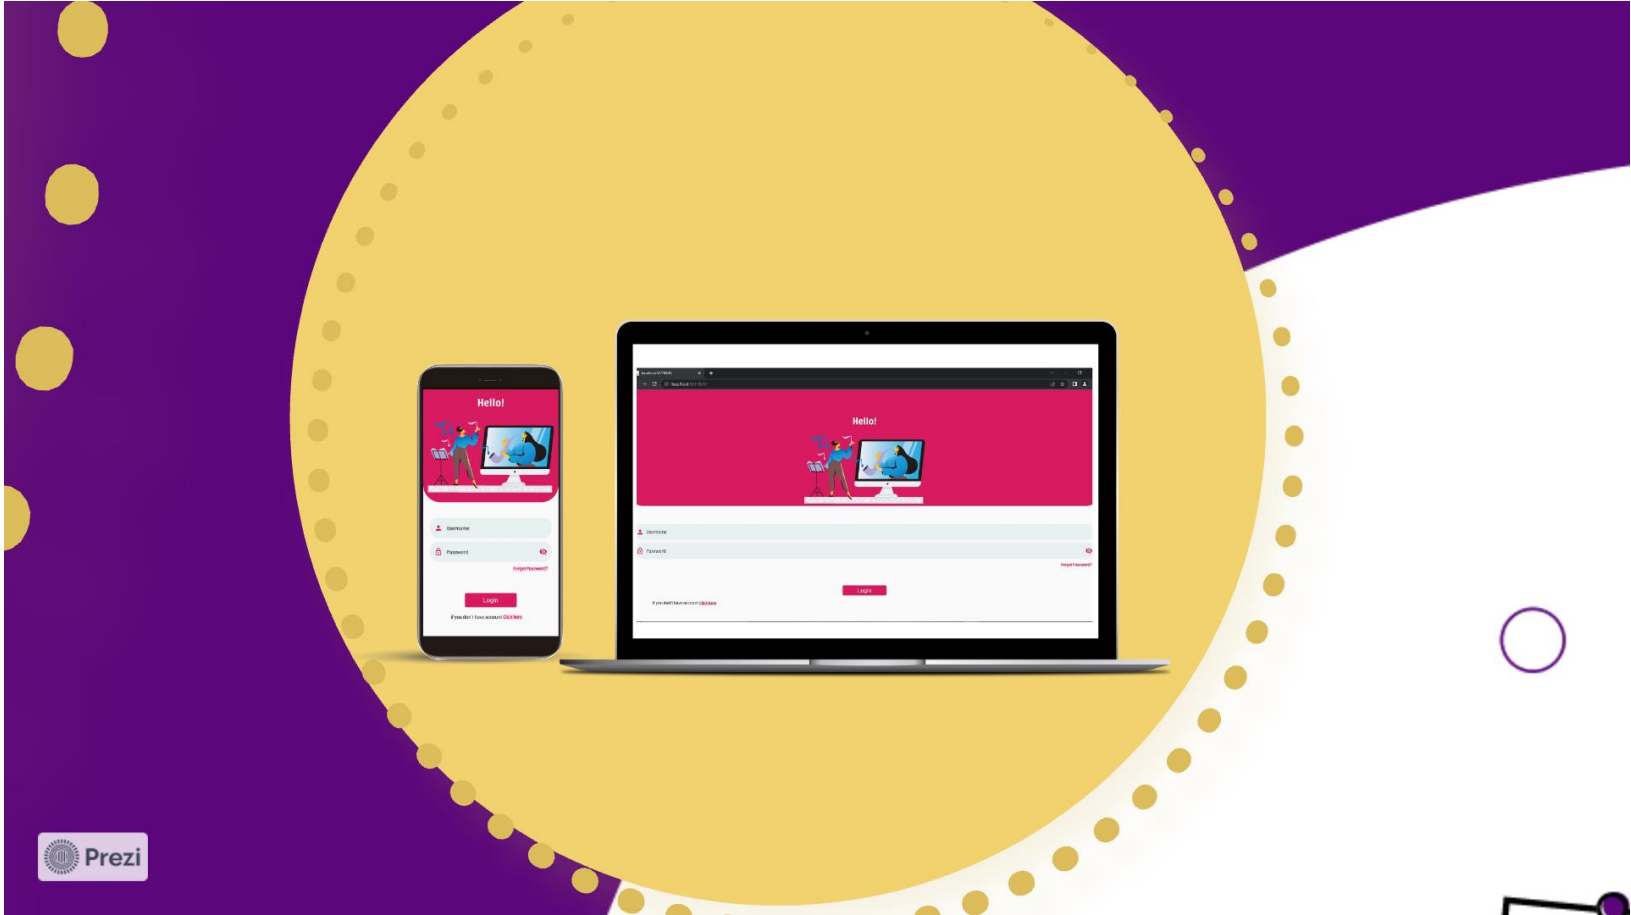

Problems:

- 1** Lack of Arab music teachers
- 2** Communication and dealing with Music centers
- 3** The lack of music centers in Palestine
- 4** The lack of experience with dealing with music applications

Implementations

Design

1

No templates

2

Design
Smoothness

3

Shape
Symmetry

4

Easy to
understand
design

Client Side

Flutter Framework

Great Documentation

Easy to learn

Rich Community

Beautiful UI

Server Side

Express

MongoDb

Node.JS

Fire Base

Final Results

The application and website are working smoothly and completely

System of notifications to notify the user outside or inside

Achieving the expected results and objectives of our application

Challenges

1 Error reporting in Express

2 Error between net work connection
a Express server

3 No previous experience in
design

4 Flutter web use

Future Work

- 01** Developing the teacher's system and adopting the ratio system
- 02** Availability the Arabic language feature
- 03** Develop our store to include more items
