Future Work

Problems

The difficulty of couples
about to get married
accessing ceremony services
and dealing with them in an
easy way

The wedding planning application is the solution as it will facilitate couples' access to the services they want by setting the wedding date and budget.

01

Rating

Users can rate the services they have tried

02

Precision

When you add the wedding date, only the services available on this date will appear

03

Discounts and the prices

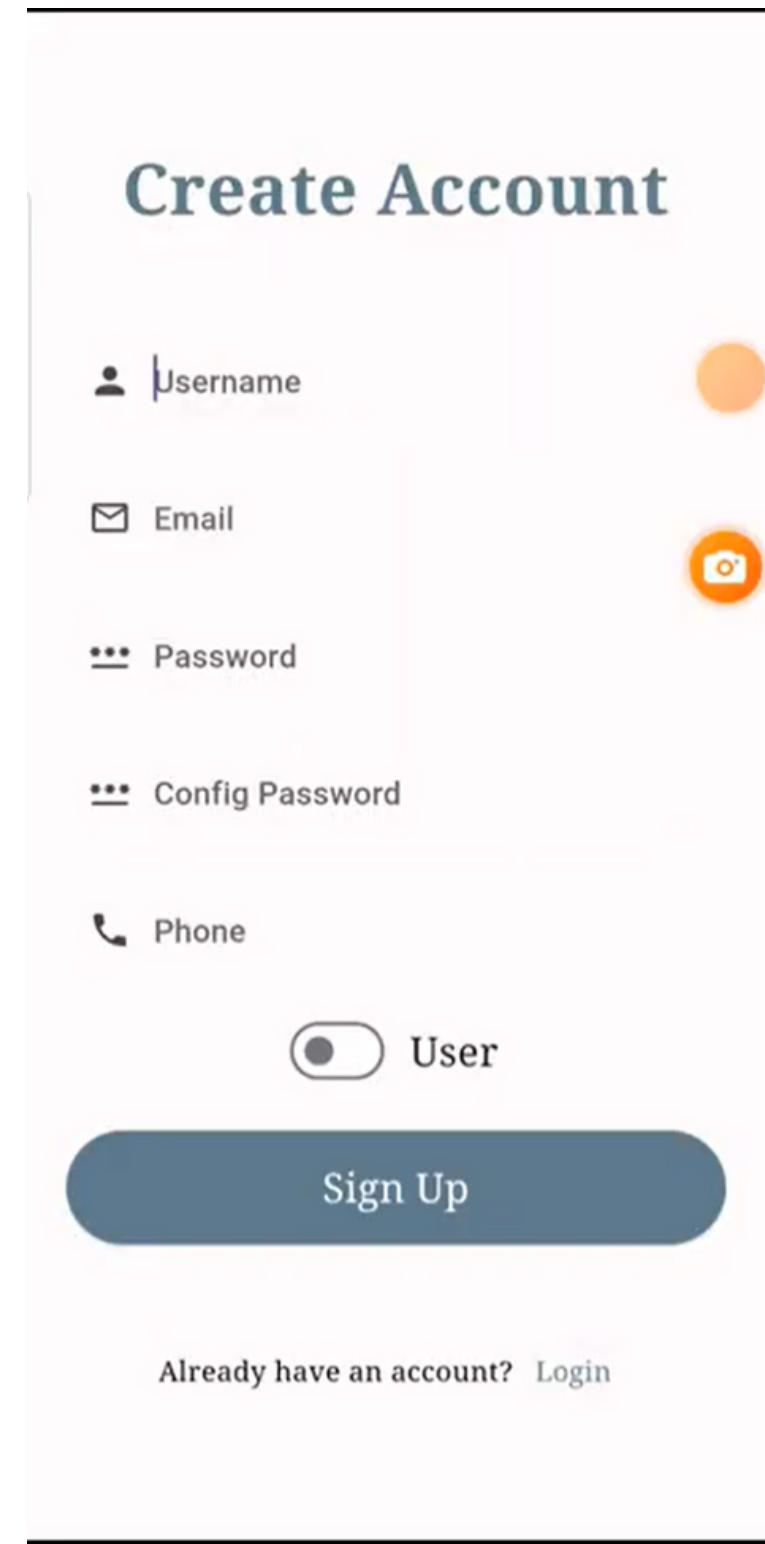

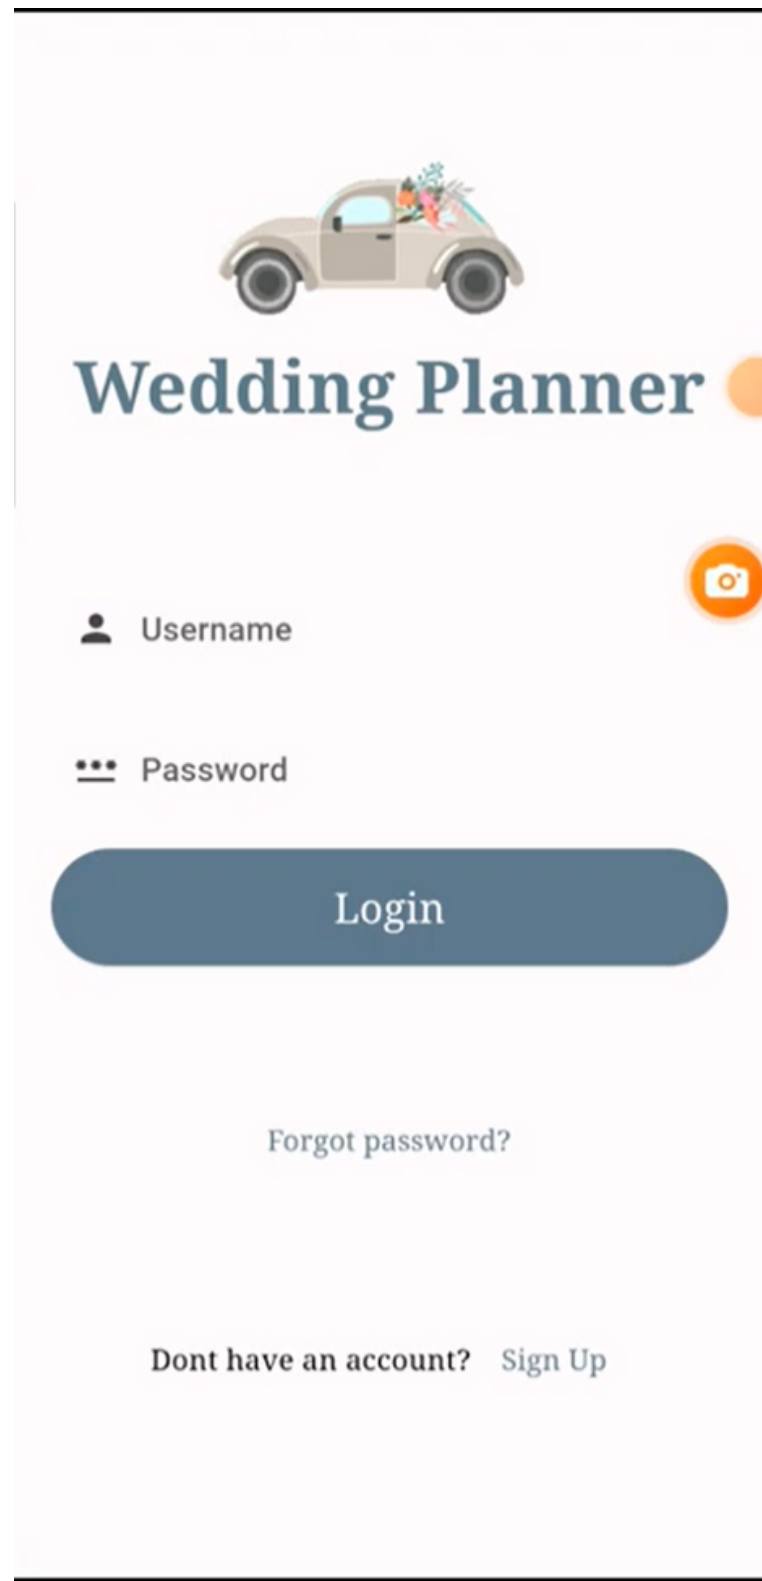

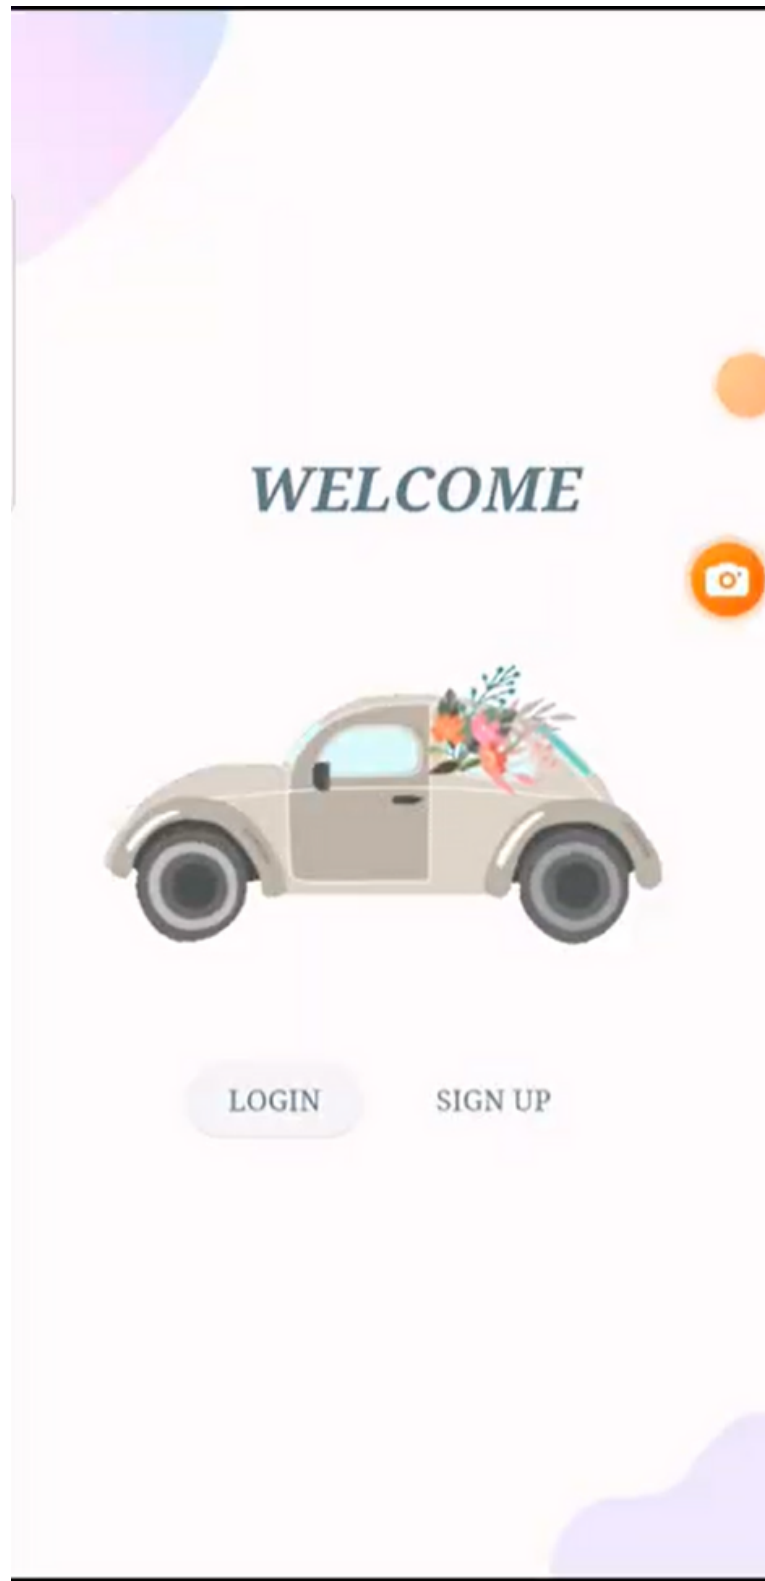

When you request the service through the application, you will be given a discount on the price

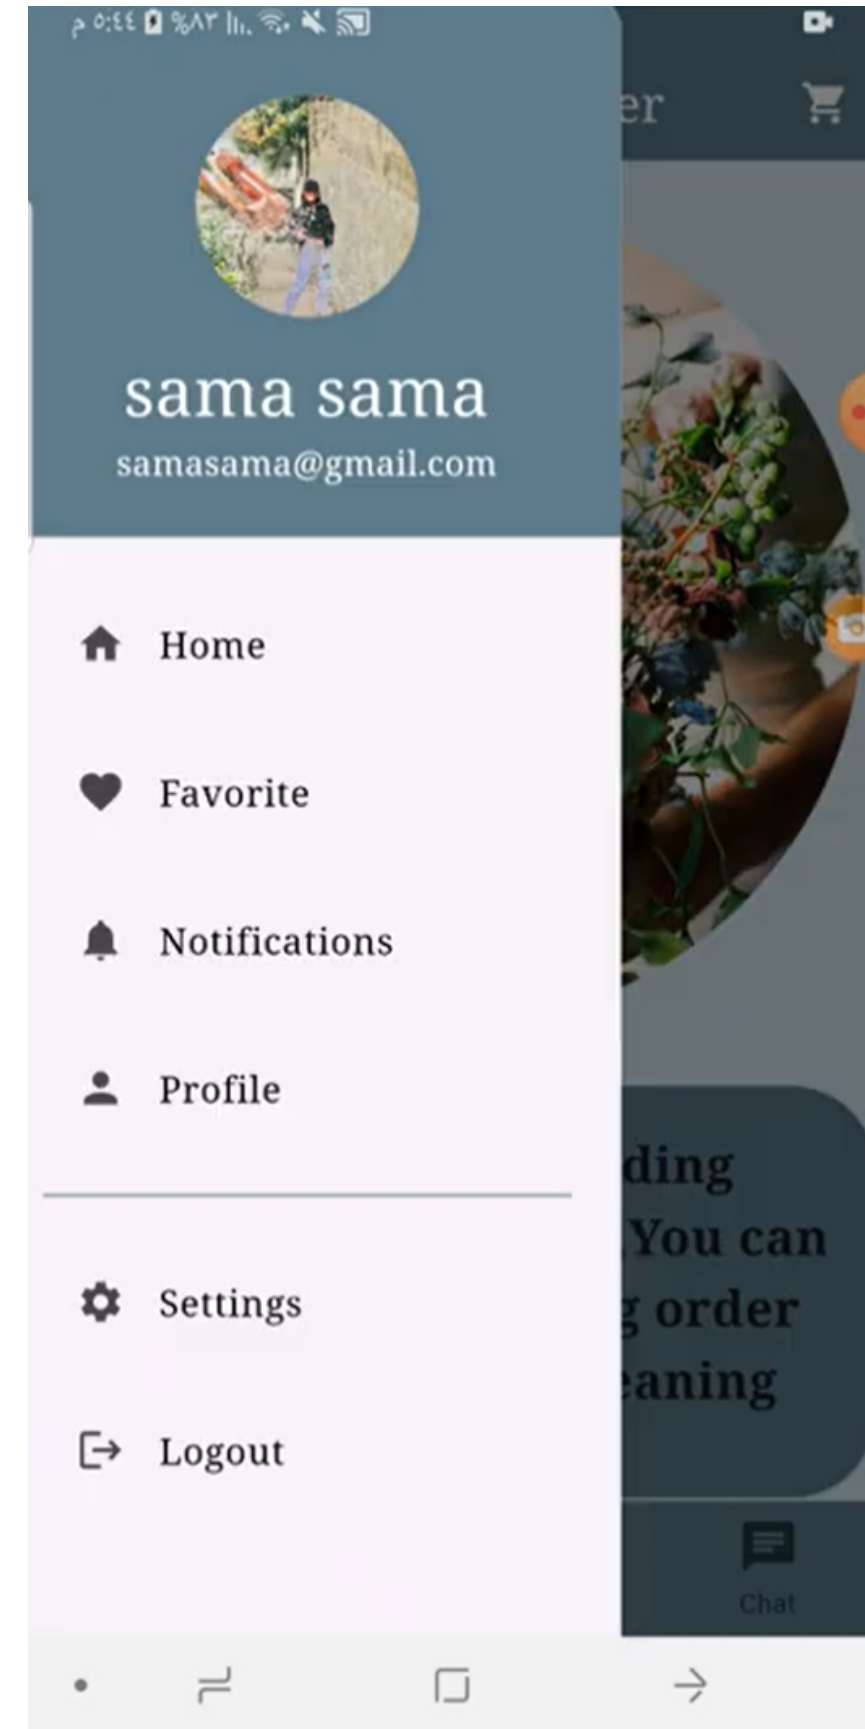

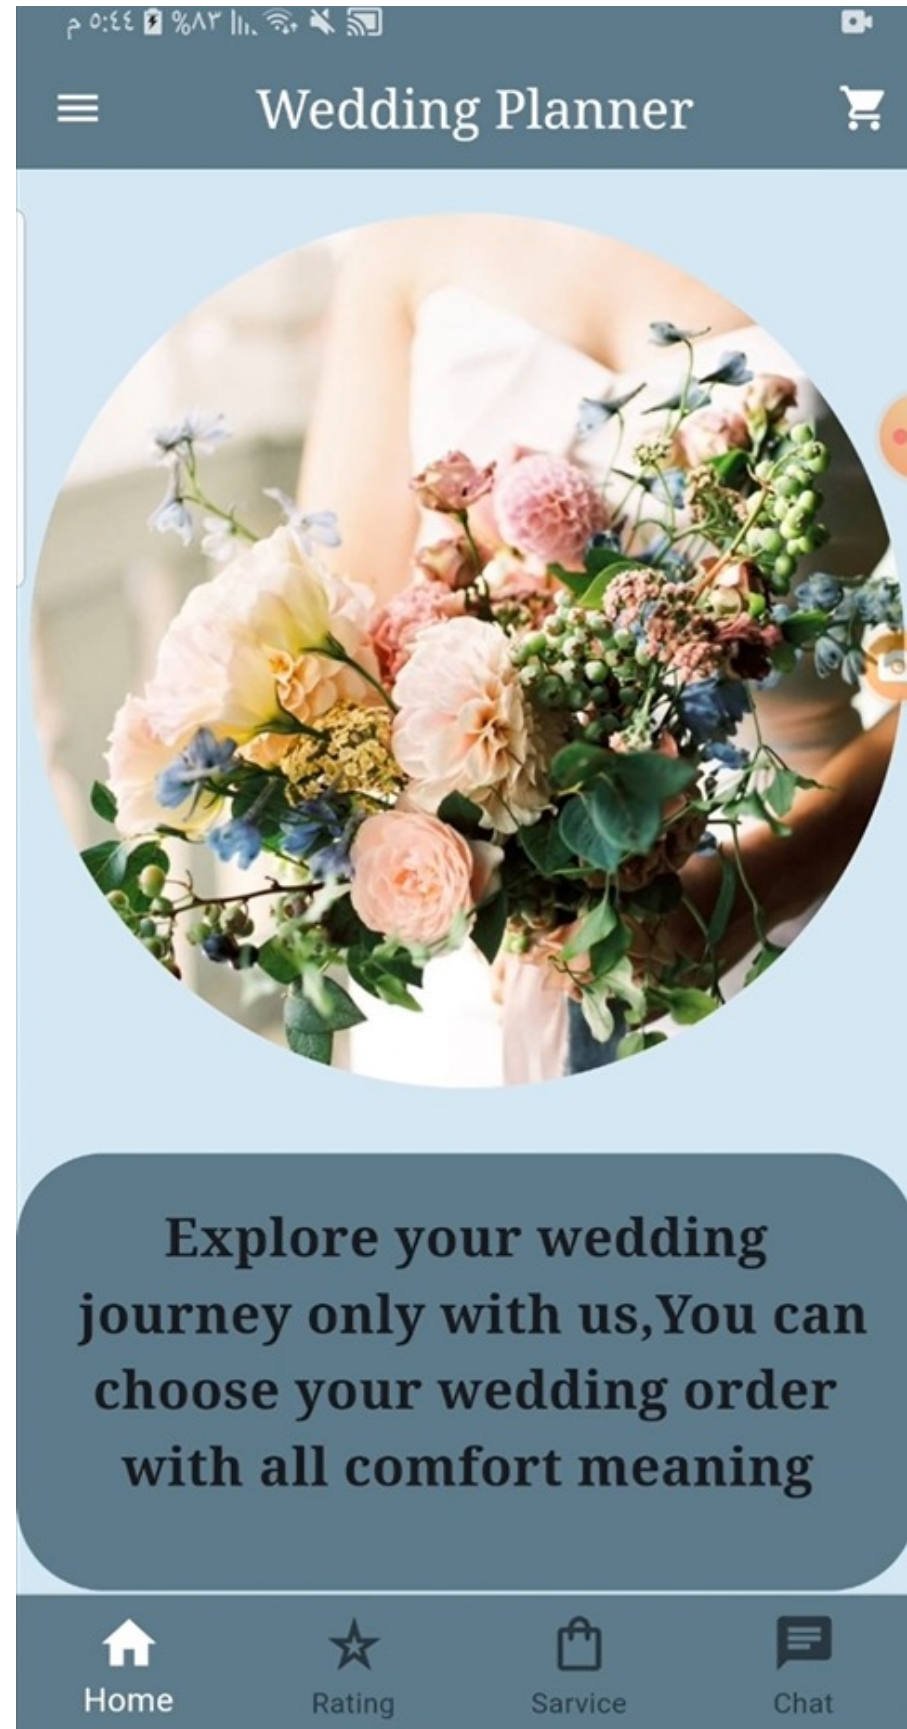

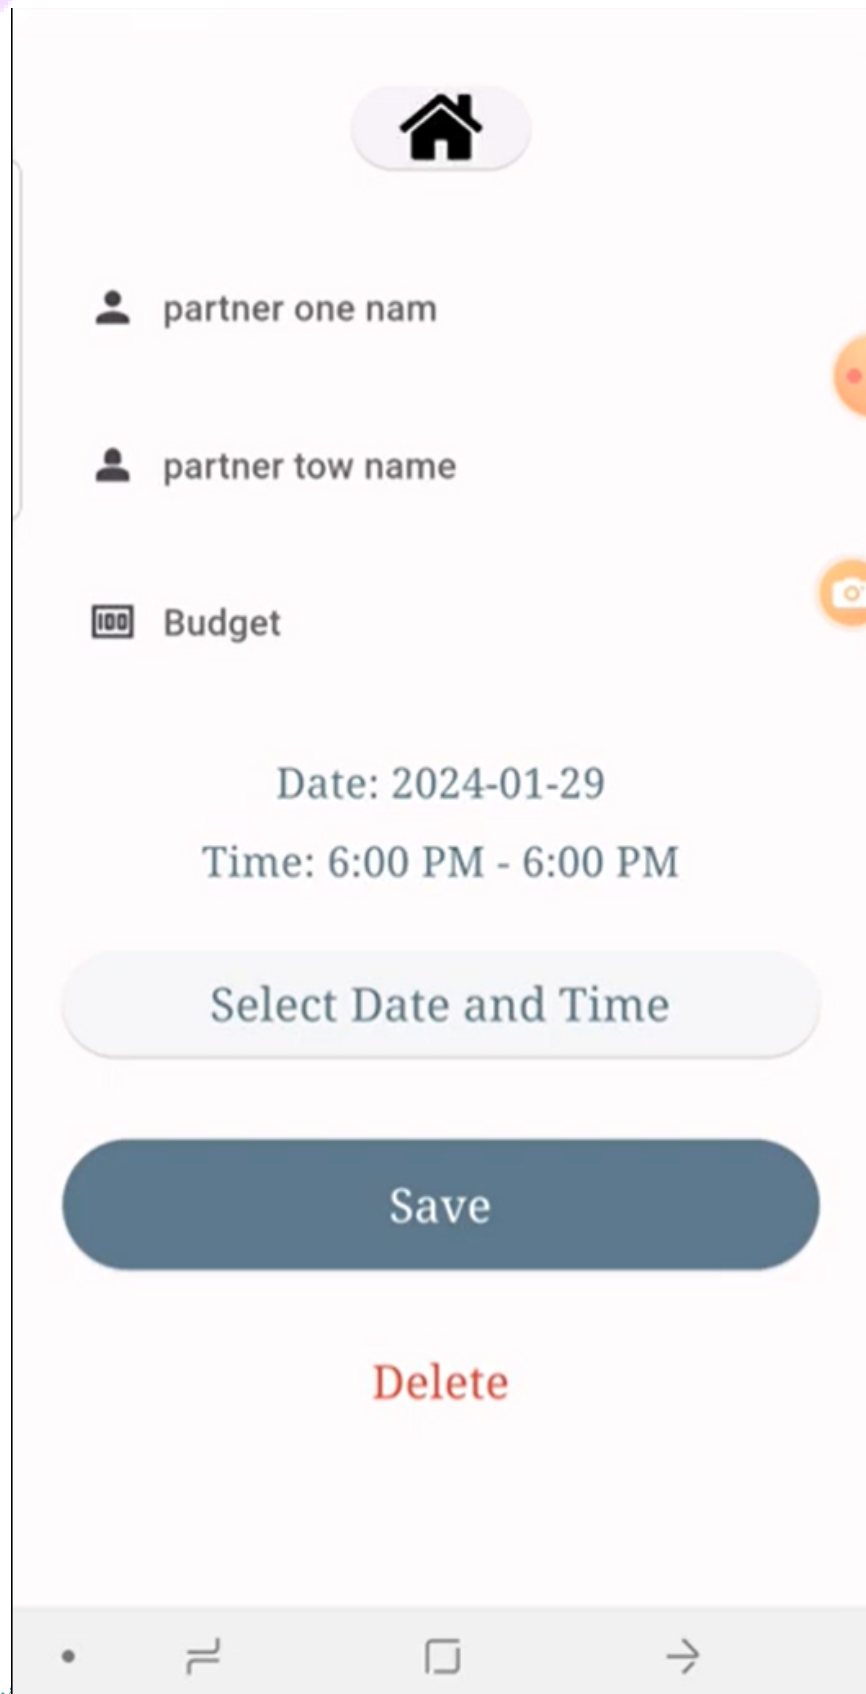

04

chat

Users can communicate with the service owner via messages

Constraints

These are some examples of the constraints we faced

01

Our use of the Mongo database

02

The smooth transition of work amongst team members

FUTUER WORK

01

**Expansion of
Services**

02

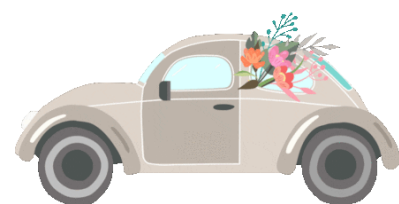

**Continuous User Feedback
and Improvement**

03

Map
