University Selection to know the background of our Students and Tutors

The EduPro logo is at the top center, featuring a blue graduation cap icon above the text "EduPro" in blue and orange. Below the logo is a user selection interface. It shows two user profiles: "Dima" and "Eid", each with a person icon. Below them is a "Select University" dropdown menu with a building icon. The dropdown is open, showing a list of university options: "Select University" (highlighted in blue), "An-Najah National University", "Birzeit University", "Palestine Polytechnic University", "Arab American University", "Palestine Technical University", "Harvard University", "University of Oxford", and "Other". At the bottom of the interface is a dark blue button labeled "GET STARTED" in white. Below the button is the text "already have an account? Sign in".

Java Basics: Understanding Variables and Data Types.

What is the correct way to declare an integer variable in Java?

Java

tutorialspoint

SIMPLY EASY LEARNING

www.tutorialspoint.com

<https://www.facebook.com/tutorialspointindia>
<https://twitter.com/tutorialspoint>

About the Tutorial

Java is a high-level programming language originally developed by Sun Microsystems and released in 1995. Java runs on a variety of platforms, such as Windows, Mac OS, and the various versions of UNIX. This tutorial gives a complete understanding of Java.

This reference will take you through simple and practical approaches while learning Java Programming language.

Audience

Write a Java program that takes two integer inputs from the user and prints their sum.

Language:

java

```

1 import java.util.Scanner;
2
3 public class SumTwoNumbers {
4     public static void main(String[]
5         Scanner scanner = new Scanne
6
7         // Read two numbers from the
8         int num1 = scanner.nextInt()
9         int num2 = scanner.nextInt()
10
11        // Call the sum function
12        int result = sum(num1, num2)
13
14        // Print the result
15        System.out.println("Sum: " +
16    }
17
18    // Function to add two numbers
19    public static int sum(int a, int
```

Chatting System

users can open their chatting and discover their chat content.

The screenshot shows a chat interface for a contact named 'sema Hodali'. At the top left is the contact's profile picture and name. An information icon is at the top right. The chat history includes:

- An incoming message: `neural networks.mp4` (03:45 AM)
- An outgoing text message: "and here's a cheat sheet summarizing key concepts of neural networks for your review" (03:50 AM)
- An outgoing image of a "Neural Networks Basic Cheat Sheet" (09:51 AM). The image contains a diagram of a neural network with layers of nodes and connections, and a legend titled "Index" listing various components.
- An outgoing text message: "thanks!" (03:51 AM)
- An incoming text message: "welcome" (02:37 PM)

At the bottom, there is a text input field with the placeholder "Aa", a paperclip icon for attachments, a camera icon for photos, and a send button.

The screenshot shows a user profile page for 'sema Hodali'. At the top left is a back arrow. The profile picture and name are centered at the top. Below the name are two icons: a person icon labeled "Profile" and a magnifying glass icon labeled "Search".

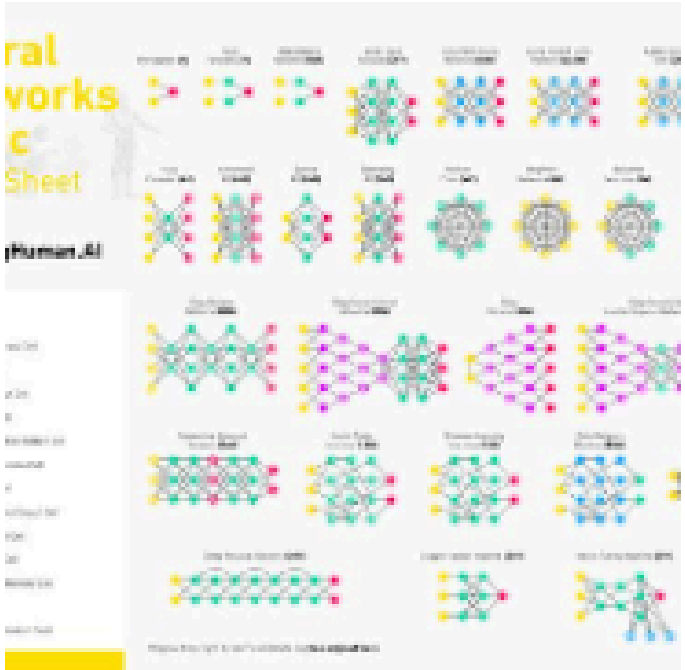

Underneath is a section titled "Media, files and links" with an upward-pointing chevron on the right. This section contains three items:

- Media (with a photo icon)
- Files (with a document icon)
- Links (with a link icon)

Chatting System

Users can search inside their chat conversation.

Media

The Media panel displays a grid of various neural network diagrams and cheat sheets. The diagrams are colorful and show different architectures, including feedforward, convolutional, and recurrent networks. Some diagrams are labeled with terms like 'Human AI' and 'Neural Networks'.
