1

# General Idea

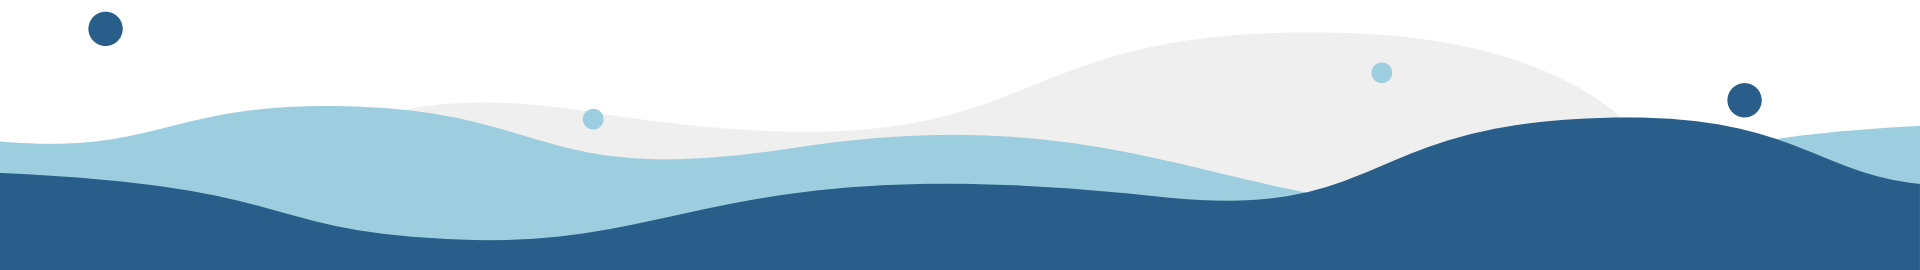

The motivation and reason behind this idea

# Touch Typing

What is it and how we can  
learn it.

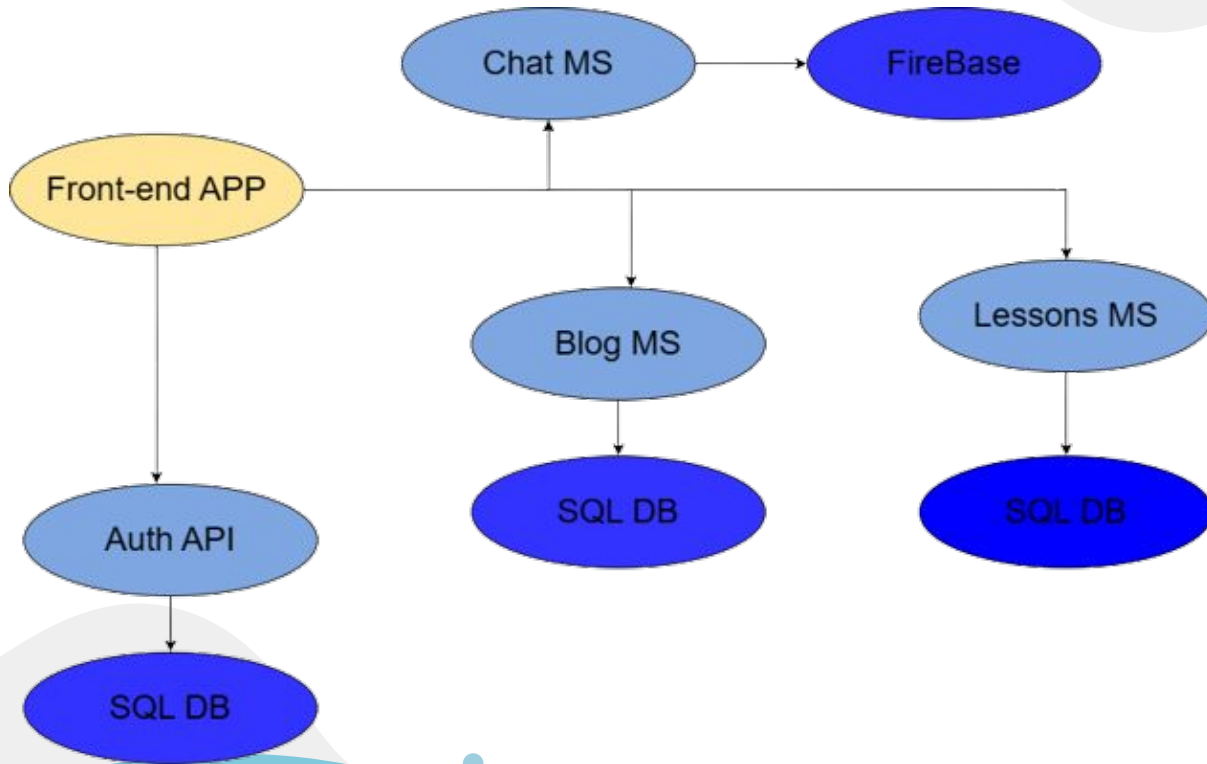

2

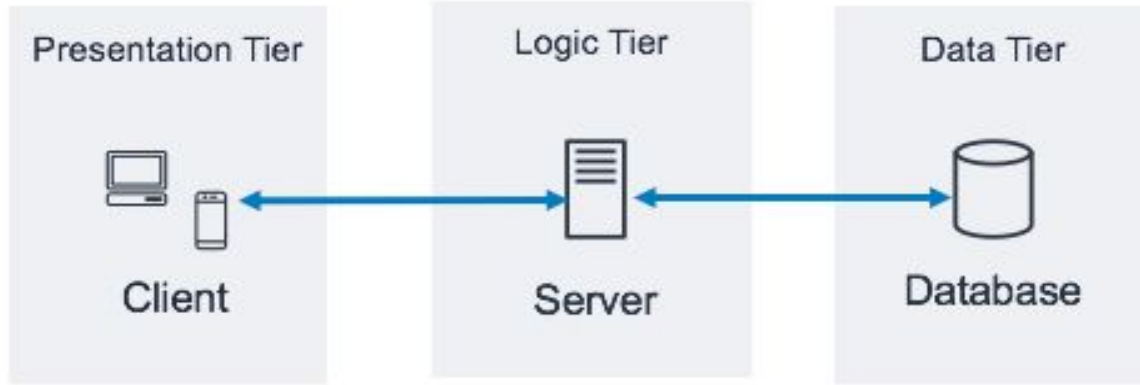

# Backend Architecture

Microservices and distributed approach  
alongside Layered architecture

# Call Graph

# Layered Arc

# Messaging between services

HTTP and MQ

# 3

## Lessons selection

We created them by imitating  
English lessons.

4

# The Tests

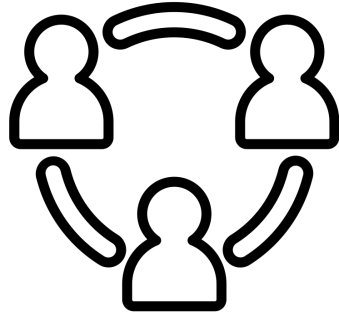

How the tests works and how we evaluate the result.

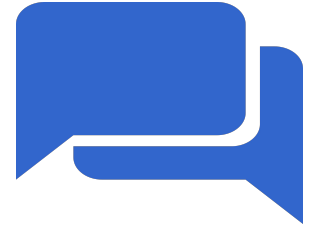

5

# Our community

1 **Blog**
