We Will explain what party planner is and what is it for

App and Features

We will take a tour of the application and explain the full feature
Technology

Technology

We will mention the technology used to create the application

Future Work

We will talk about future work

Question and answer

Feel free to ask any Question.

The background features a dark, warm-toned bokeh effect with numerous out-of-focus light spots in shades of gold and yellow. Several thin, white strings of small, glowing lights are draped across the upper portion of the frame, creating a festive and cozy atmosphere.

Introduction

Why Party Planner app ?

Our objectives for the party planner application are to address the primary issue of manual party planning procedures, improve efficiency and accuracy, and provide valuable insights to service providers.

Goals

1

Simplify party planning with our tools. Easily reserve services, communicate efficiently, and manage party details comprehensively.

2

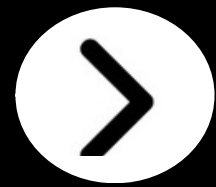

The objective of the Party Planner app is to help business providers assess the satisfaction level of their customers with their services.

3

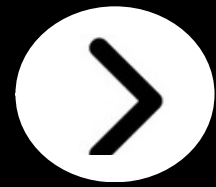

Our platform connects service providers with potential customers, allowing them to showcase their offerings. This enables effective marketing and advertising for their services.

The future of work

The future of work

Our application's future involves using artificial intelligence to curate events, providing users with personalized suggestions, theme concepts, and vendor recommendations based on their preferences and past interactions.

By utilizing augmented reality, this application aims to revolutionize party planning by offering immersive virtual event previews. Users can experience venue layouts, decorations, and entertainment options in real-time, ensuring that every aspect aligns perfectly with their desired vision.

THANK

YOU
