

Partnerships in Global LED Lighting Technology

Patricia Schneider

PolyBrite International Lighting, Goeken Group
1751 West Diehl Road, Naperville, IL 60563

PolyBrite International is an innovative global lighting technology company that develops state of the art LED lighting systems. It strives to create partnerships worldwide in the lighting business. As executive vice president, I oversee the legal aspects of the partnerships. I will present brief remarks about some of our experience in this arena.

Our proprietary technology brings the energy, environmental and economic advantages of LED technology to the marketplace. I will make brief remarks about our experience in creating global partnerships for lighting solutions.
