# SALE

## 50 % OFF

SUPERVISED BY :  
DR. SAMER ARANDI

DONE BY :  
MARAQ QUBBAJ  
NADA MAHMOUD

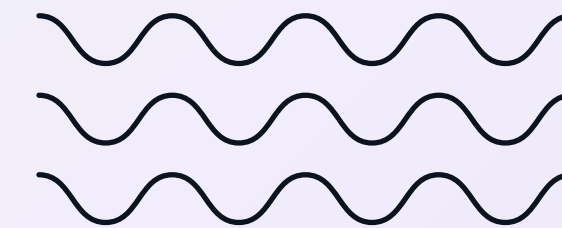

# MOTIVATIONS

- Buying products at a cheaper price.
- Knowing the locations of stores and quick access to them.
- Reducing markets losses for money and products
- Provide opportunities for drivers

# ABOUT THE PROJECT

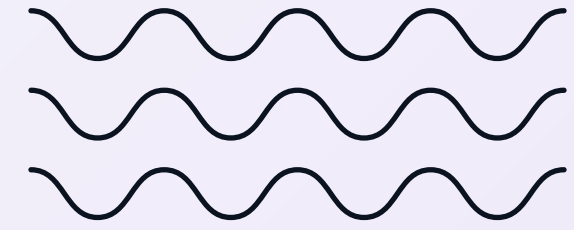

**Users** can communicate with sellers, make inquiries about products, and purchase or reserve them for 24 hours. The app allows users to monitor stores, including merchandise, prices, and offers.

**Sellers** can add and modify their products, as well as provide the market's location for easy access.

Additionally, we have local **drivers** to ensure prompt delivery of orders from the market to customers.

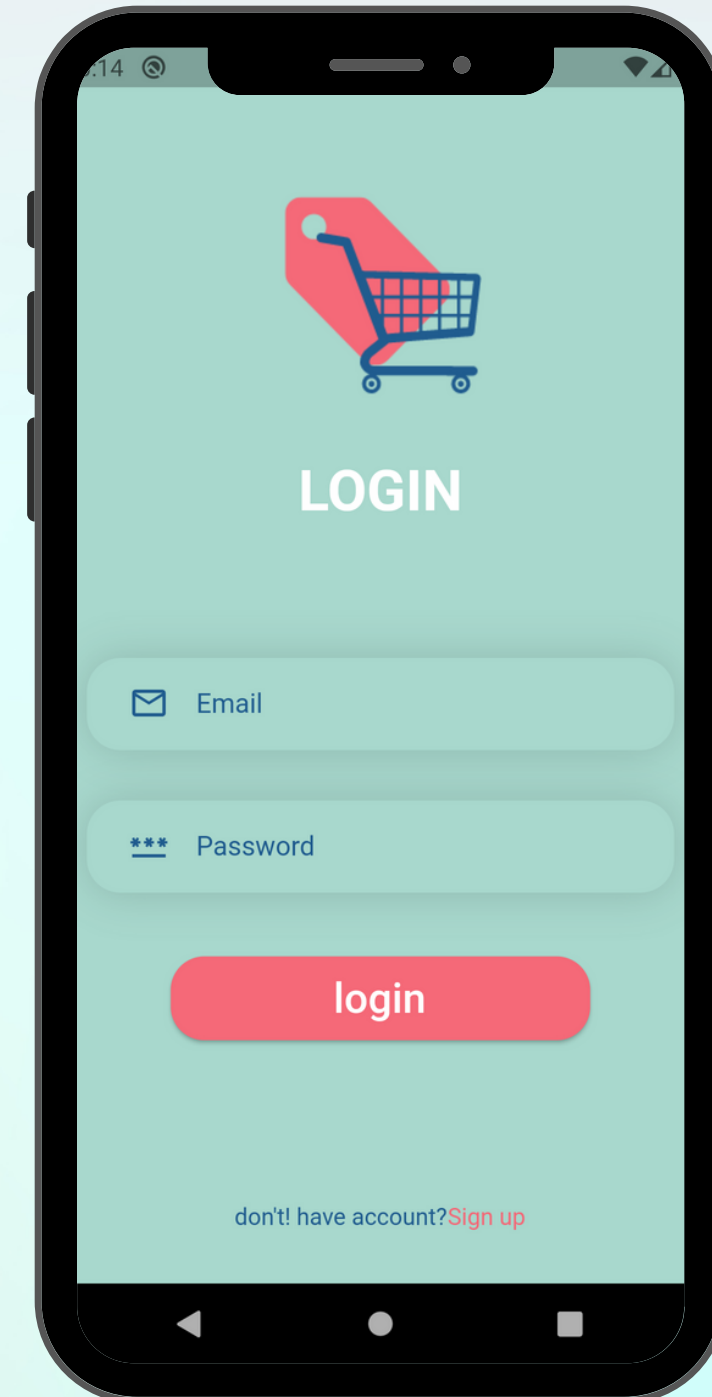

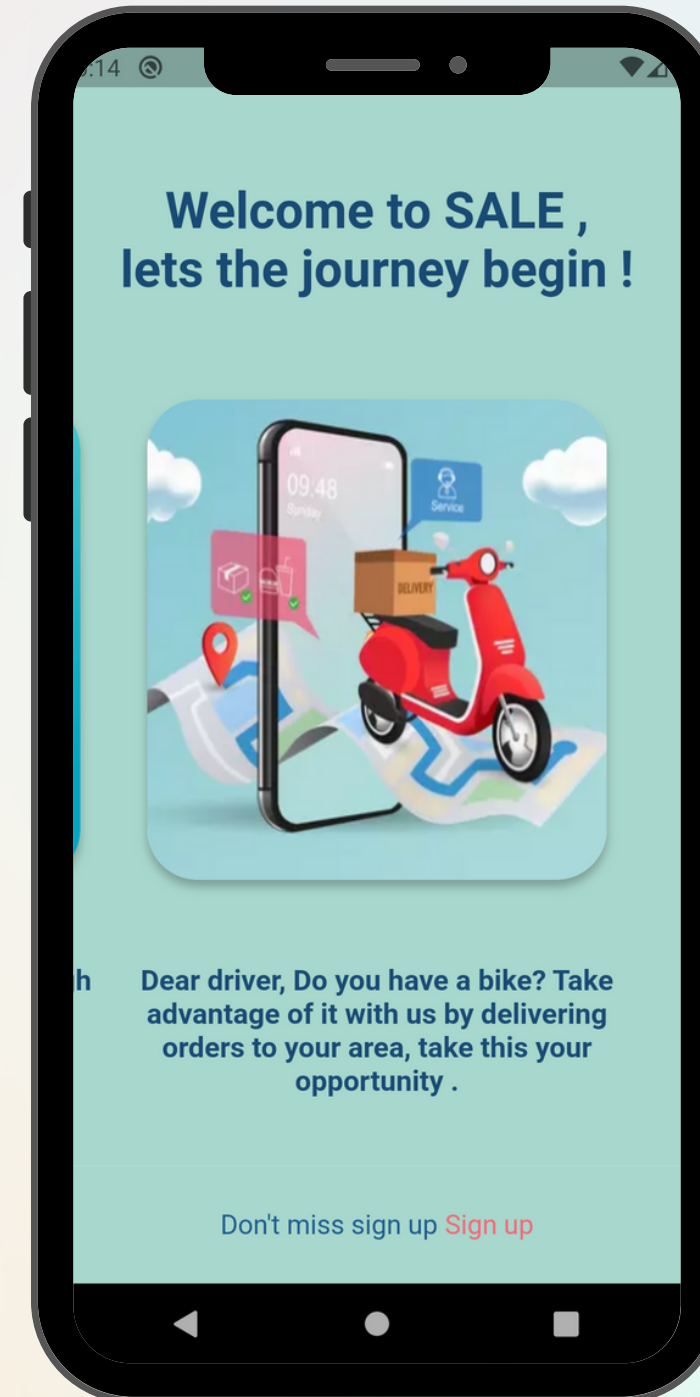

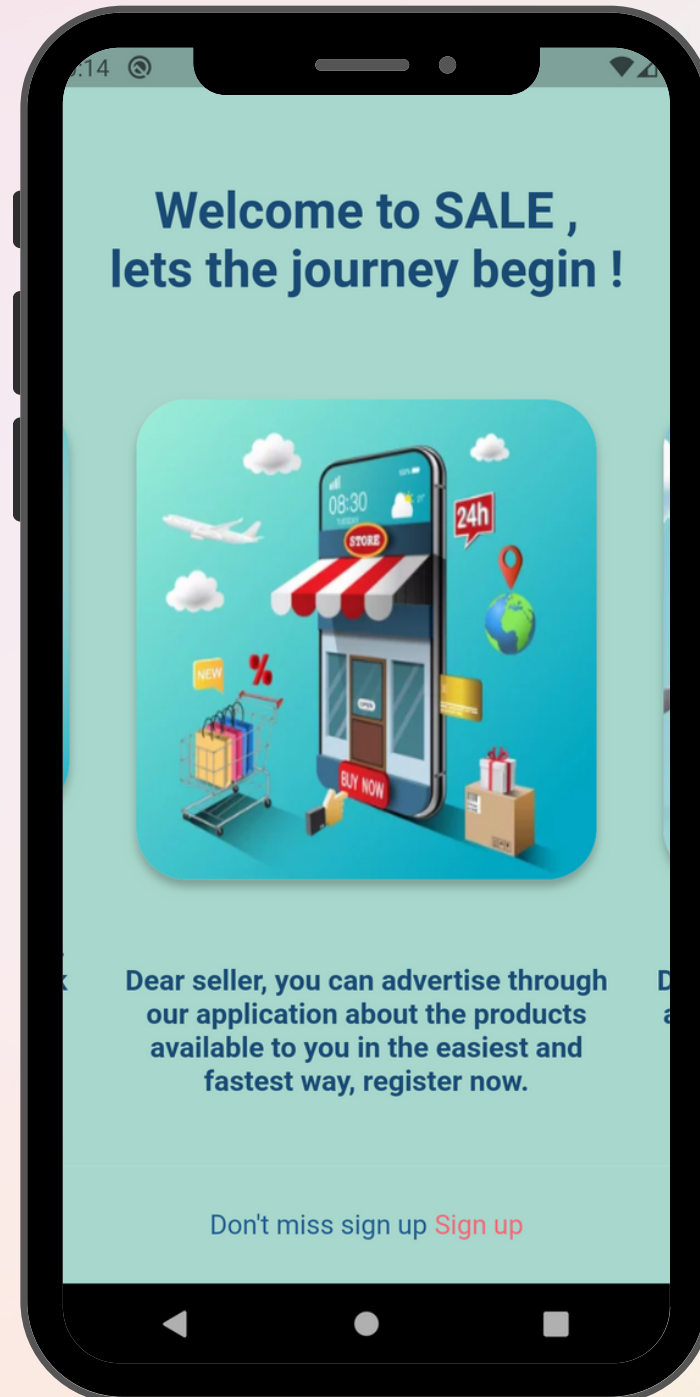

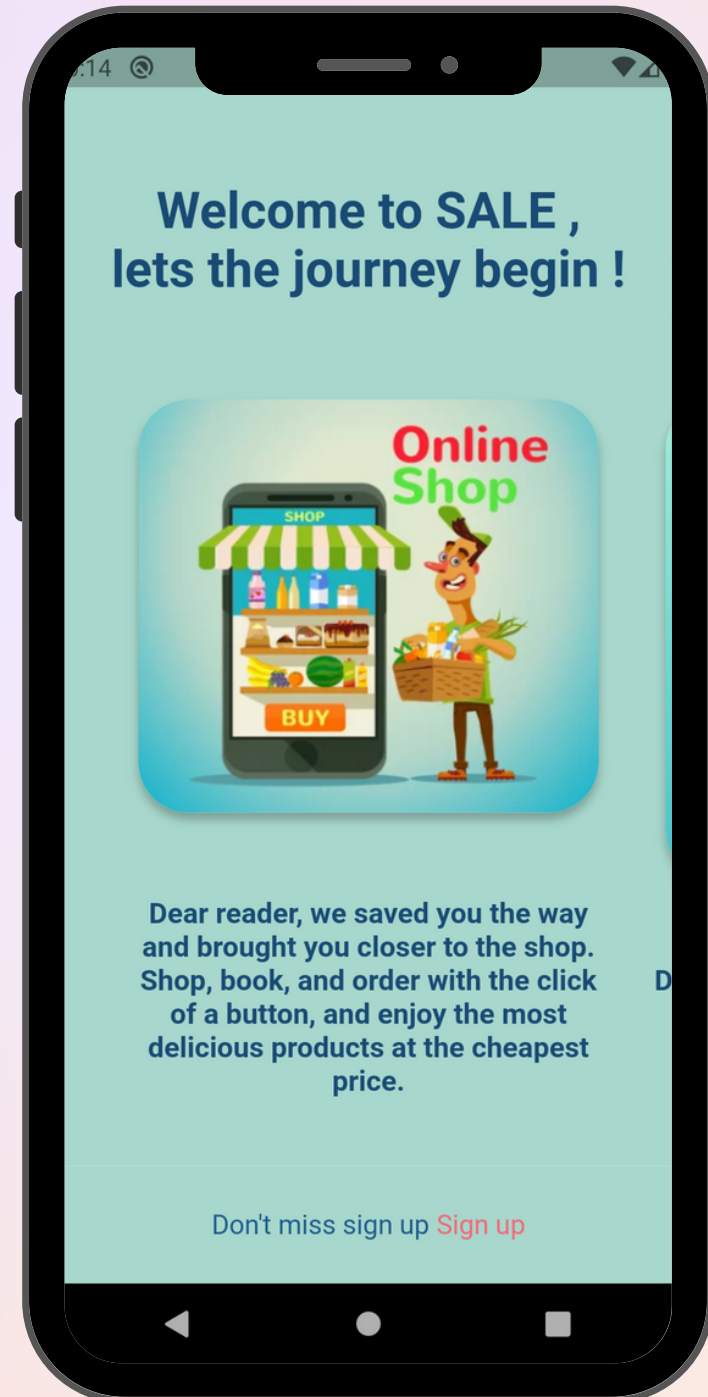

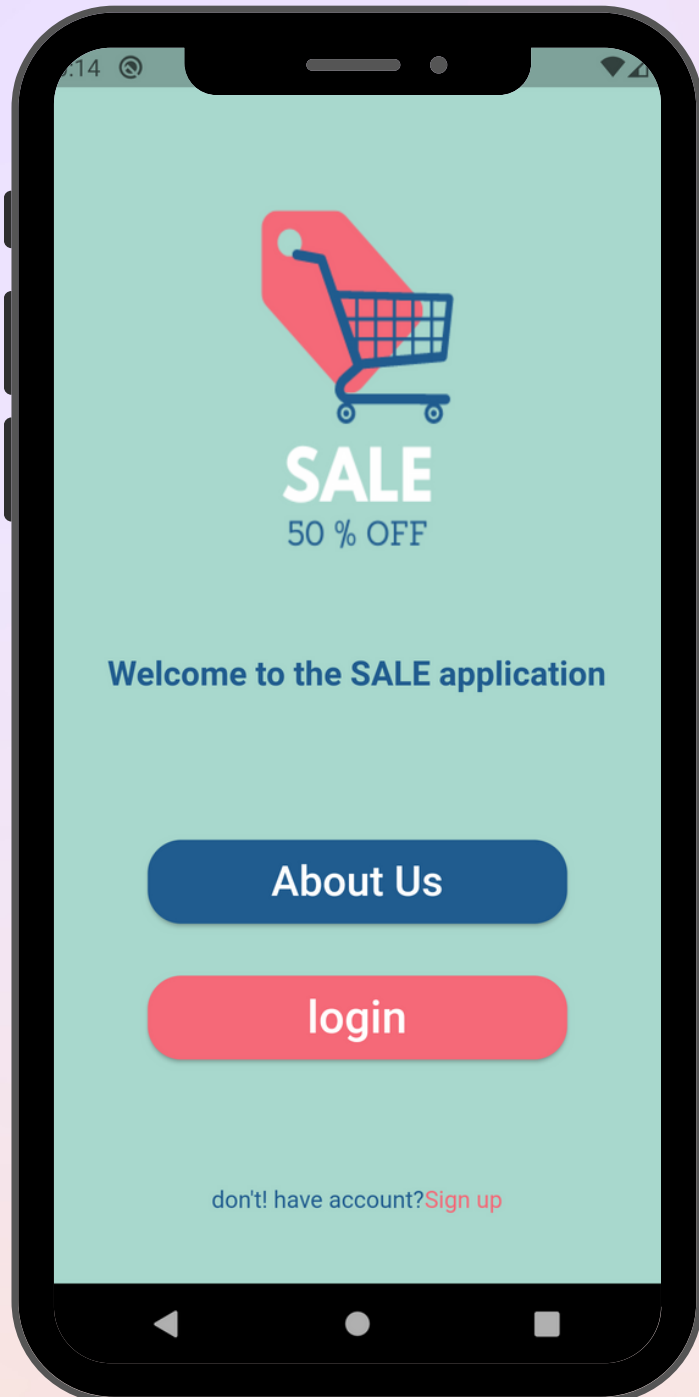

## THERE WILL BE THREE TYPES OF USERS:

- **SELLERS**
- **CUSTOMERS**
- **DELIVERY DRIVERS**
- **ADMIN**

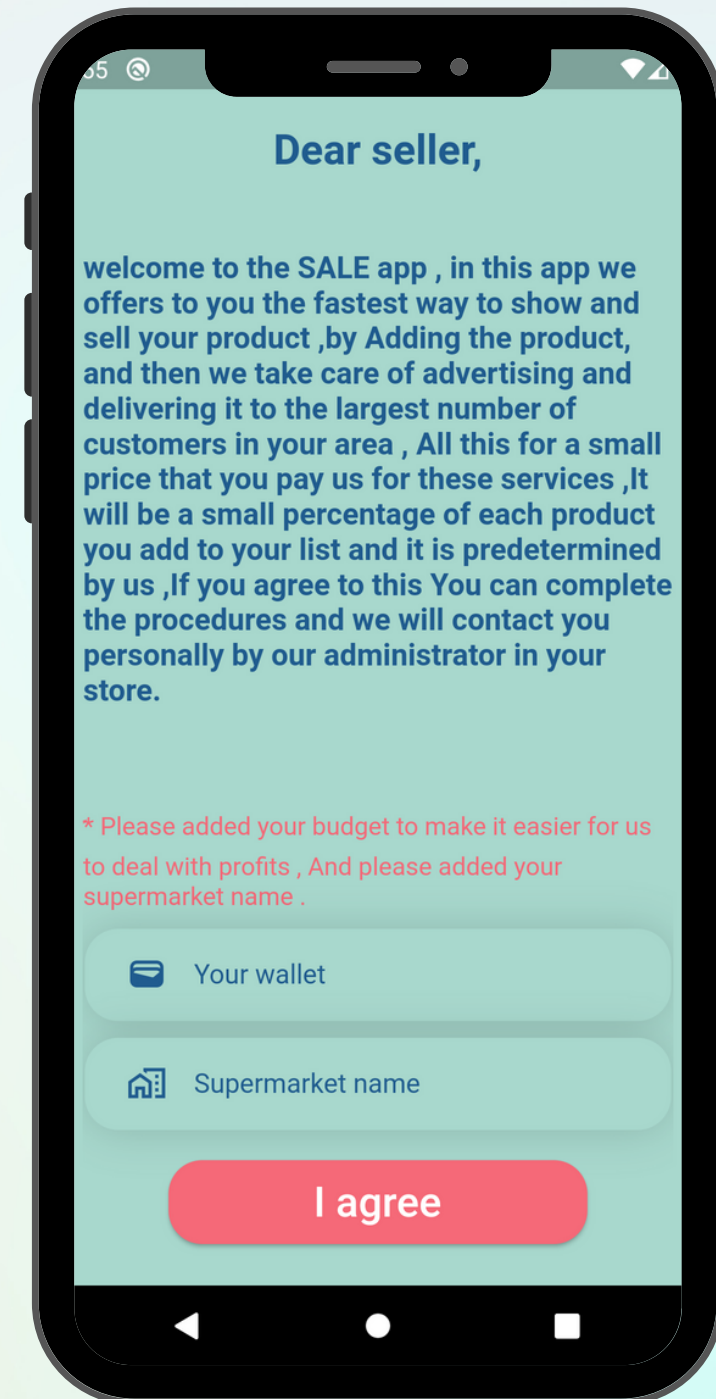

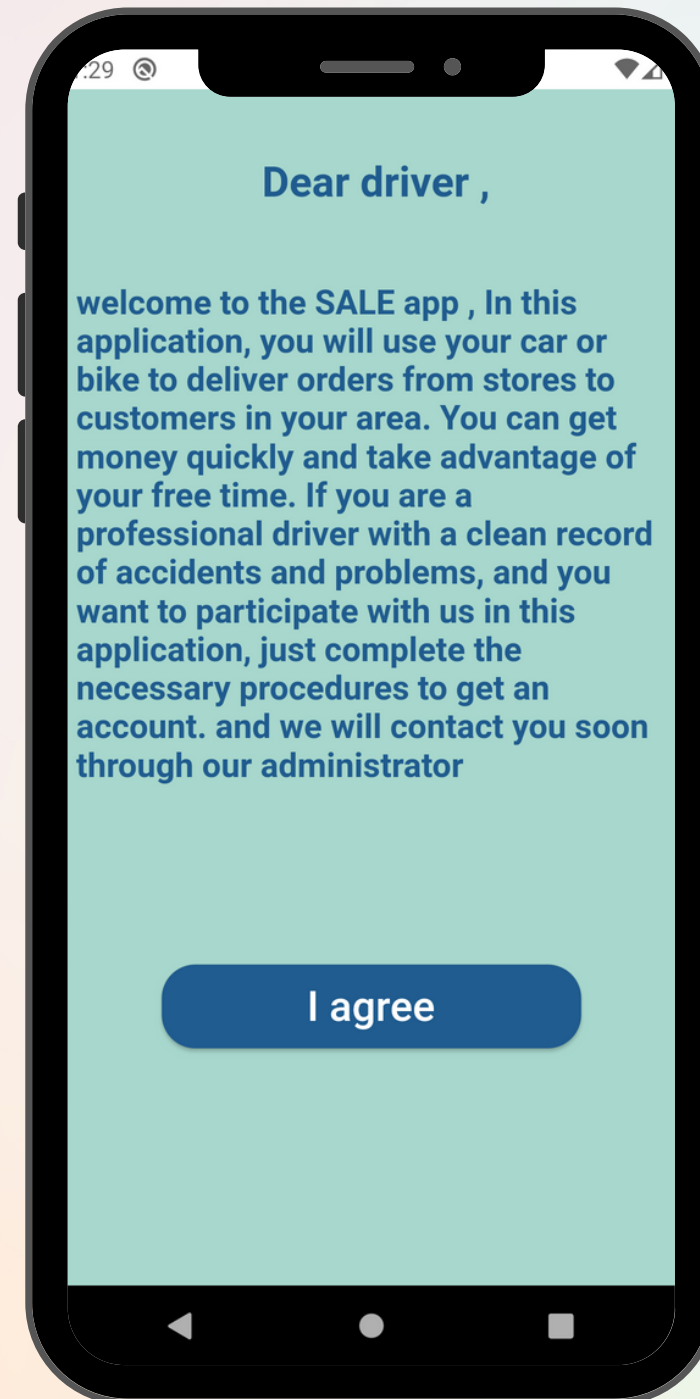

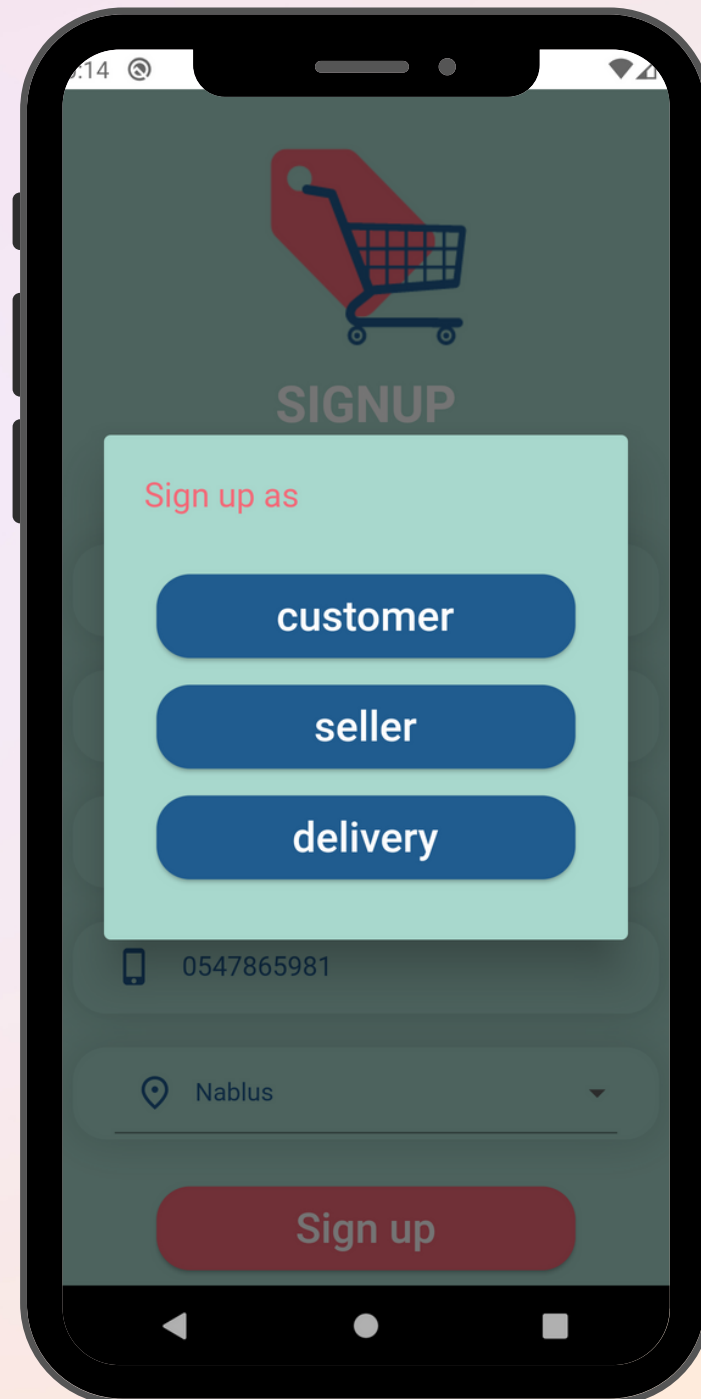

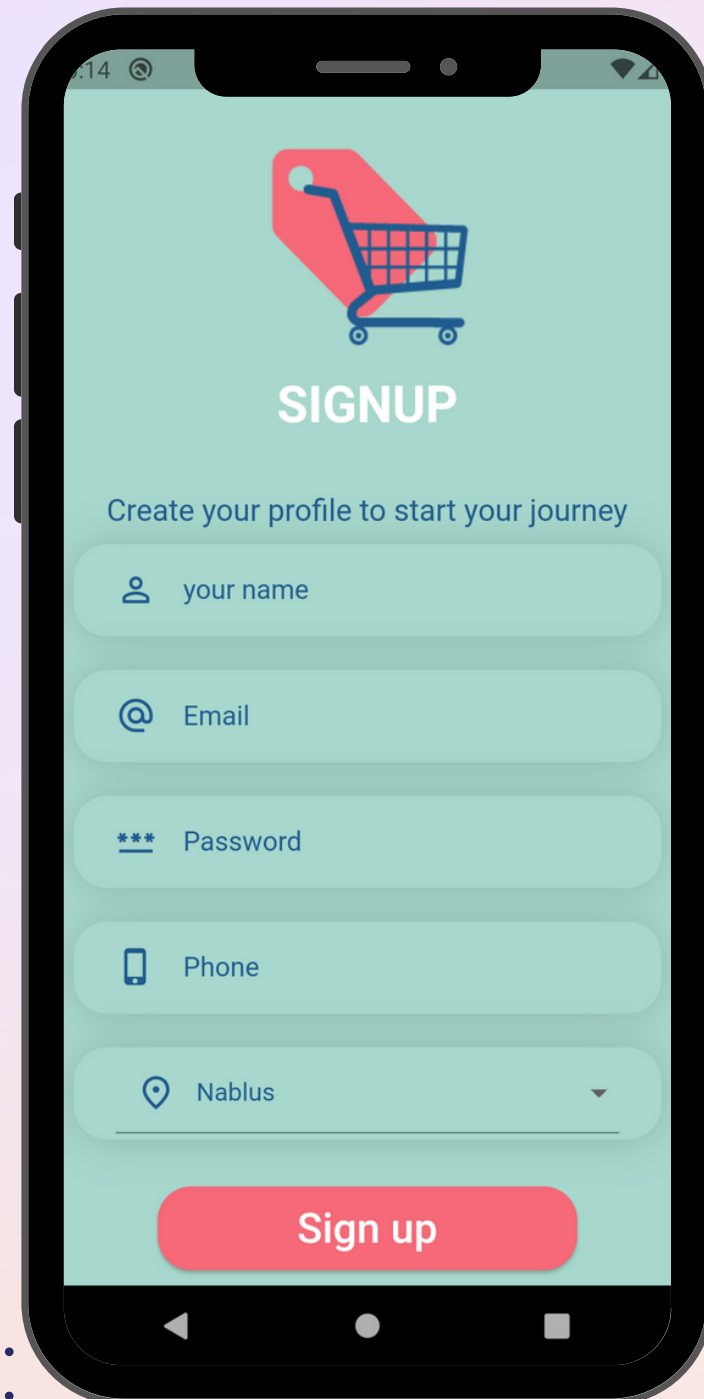

# APPLICATION SIDE :

Main pages , login and who we are.

# THE ADMIN MONITORS THE APPS FEEDBACK FROM CUSTOMERS.

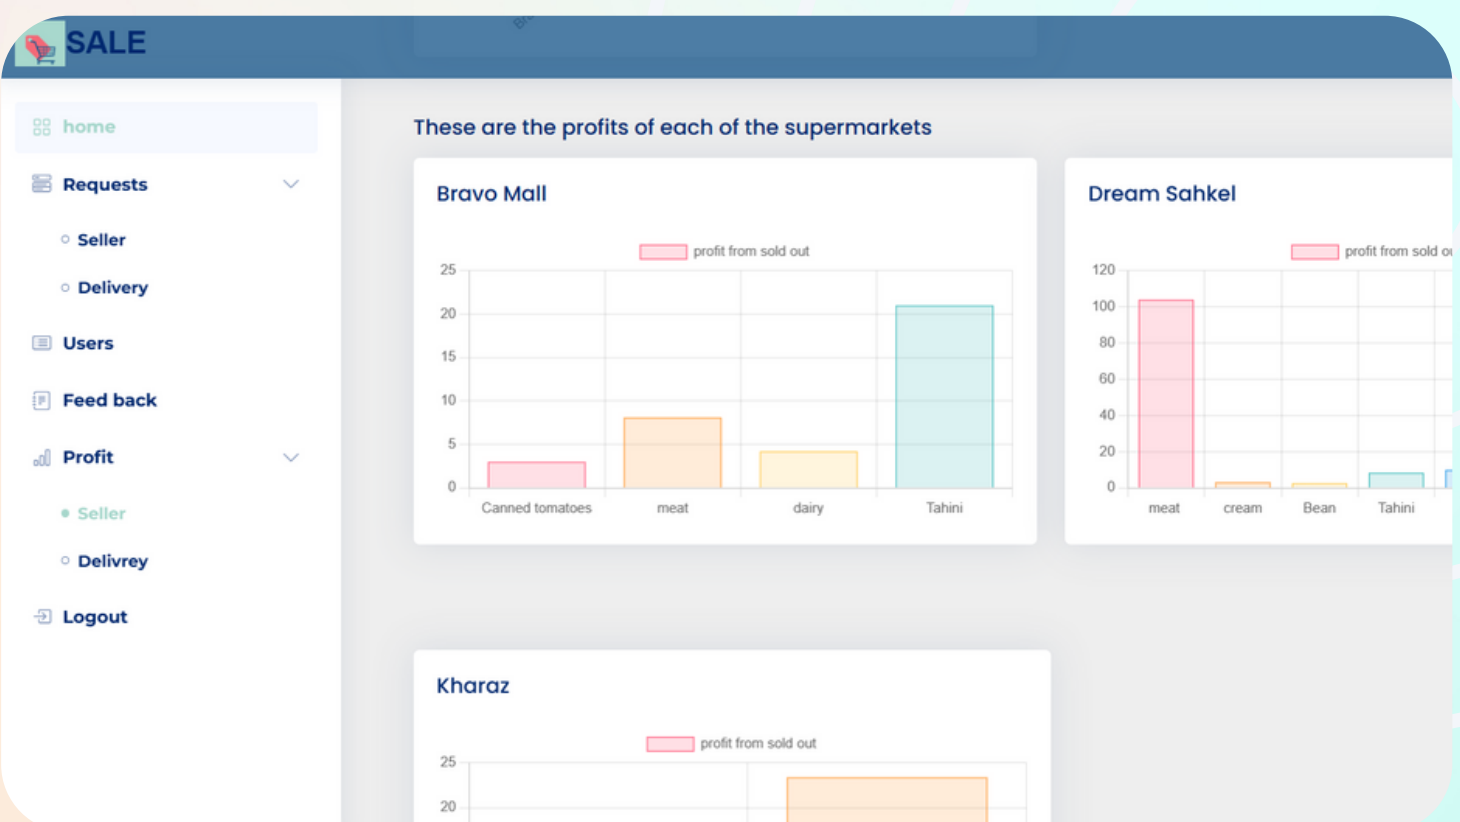

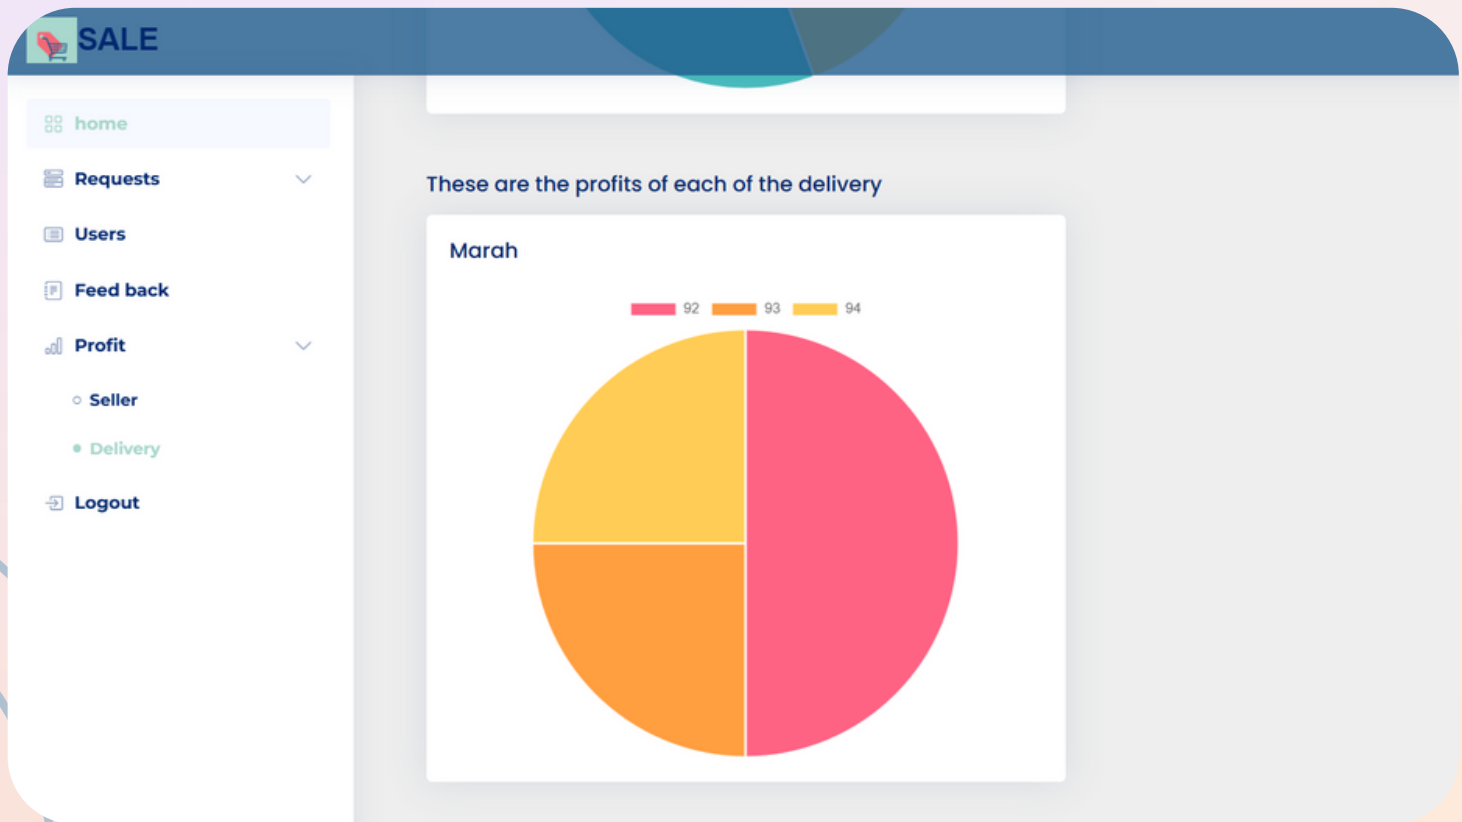

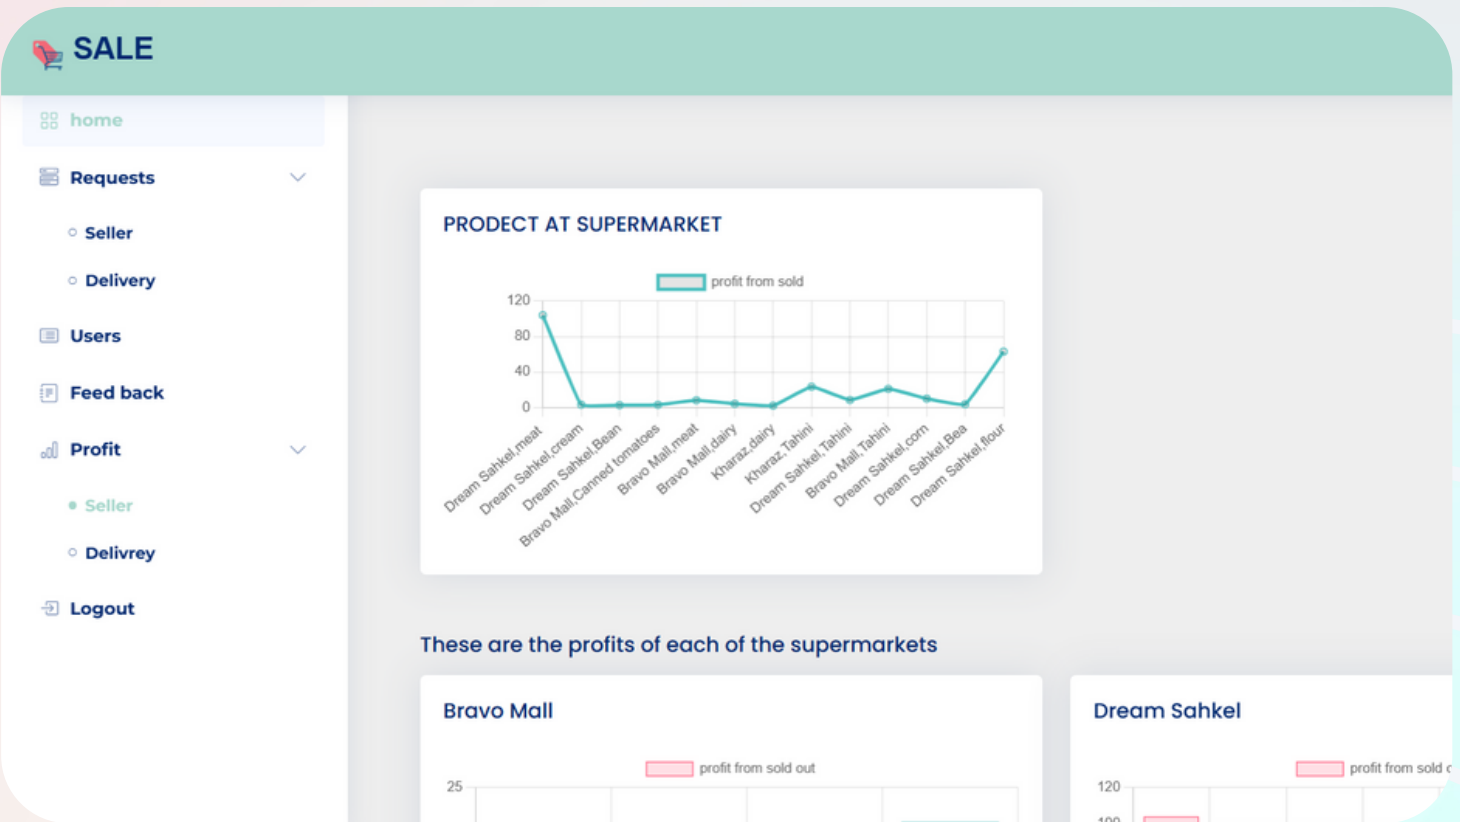

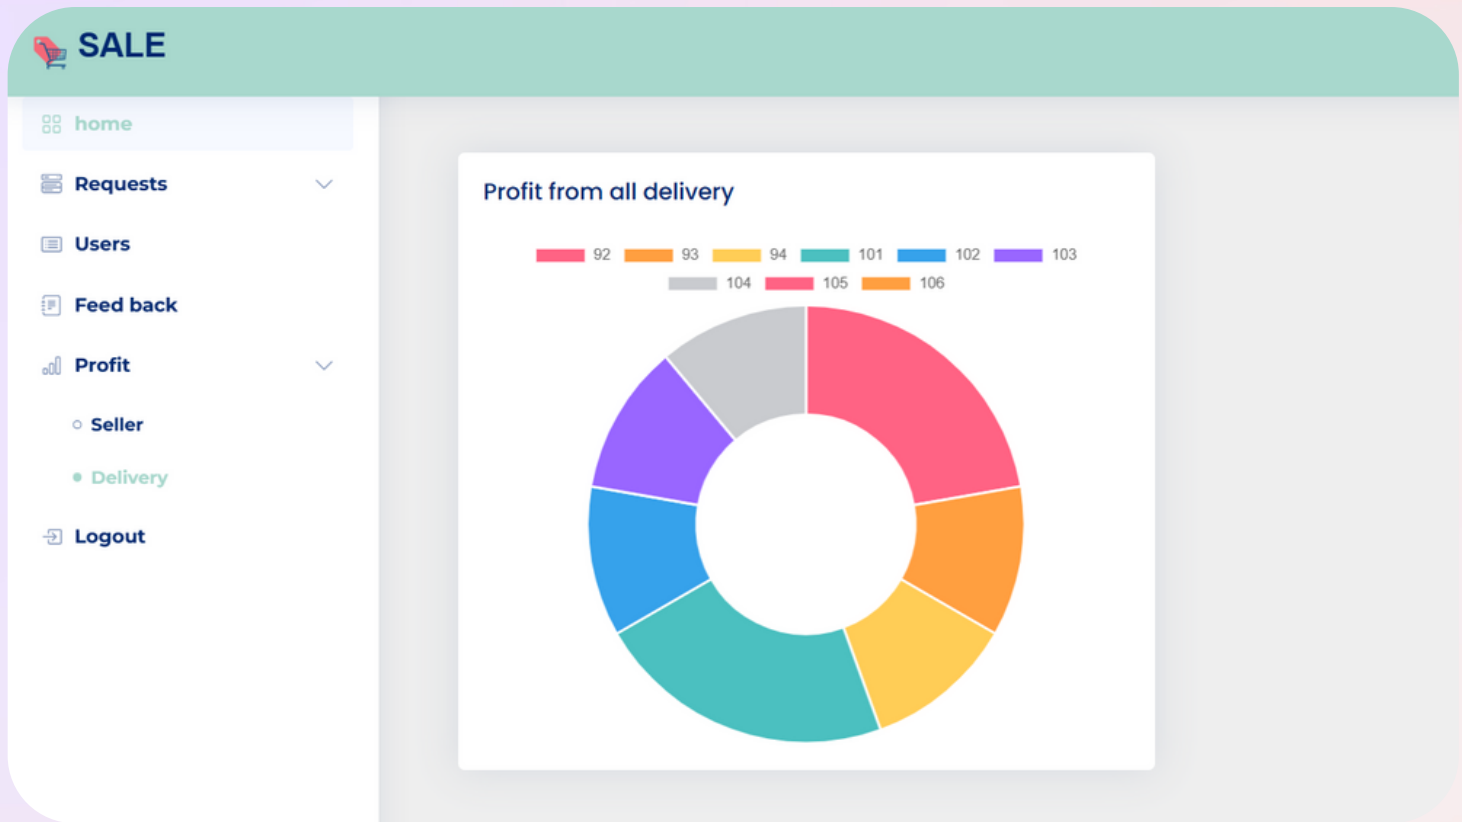

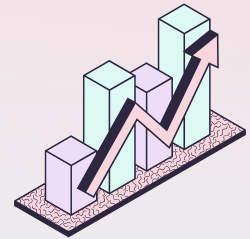

The screenshot displays a web application interface for monitoring app feedback. The top header is green with a shopping cart icon and the word "SALE". The left sidebar contains a menu with items: "home", "Requests", "Users", "Feed back", "Profit", and "Logout". The "Feed back" item is highlighted. The main content area shows a heading "View all ratings from all users, sorted by oldest date" above a table of user ratings.
