## Project's Abstract:

More than 3000000 people per year prepare their weddings ,and many couples preparing for marriage spend a lot of time and effort in the organization and planning process, including booking various wedding-related services and venues.

Wedding planner app aims to due to its potential to streamline and expedite the planning process, ultimately saving valuable time for the bride and groom.

Upon entering the application, users will be prompted to log in and specify their wedding date and budget. Subsequently, the application will present available suggestions tailored to their budget and chosen date. These suggestions will encompass wedding venues, photography locations, event decoration companies, and various other elements associated with the wedding celebration.

Users can then proceed to book their preferred options. To confirm a booking, a deposit will be required, which can be conveniently processed through the application.

While similar applications exist, our platform distinguishes itself by its unique focus on delivering a comprehensive solution that addresses the specific needs of engaged couples.
