Results of Palestinian Public Opinion Poll
No. 36
20-22 November 2008

Background

After the Egyptian preparations and the intensive communications with the Palestinian factions to hold a conference for reconciliation in Cairo, and after even sending out invitations to all Palestinian factions and other independent personalities to attend the conference, Hamas and other Palestinian factions declared their boycotting of the conference. Hamas submitted a group of requests and conditions and asked for executing them before the conference convenes. Such conditions aborted the Egyptian efforts and the efforts to hold the conference failed.

The Palestinian political arena is still divided between the West Bank and the Gaza Strip; the division is even intensified by the war of words between the two sides.

As for the truce (*hudna*) in the Gaza Strip between Hamas and the Israeli Government, several evasions occurred. The Israeli Army penetrated some border line areas in the Strip and some Palestinian factions responded by firing rockets against Israel.

The Results

Following are the results of the Palestinian Public Opinion Poll no. 36 conducted by the Center for Opinion Polls and Survey Studies at An-Najah National University during the period from 20-22 November 2008. **The University sponsors all polls conducted by its Center.**

Palestinian Public Opinion Poll no. 36 undertakes the current political realities including the failure of all efforts to hold a conference for Palestinian reconciliation in Cairo, the possibility of holding presidential and PLC elections, the truce between Israel and Hamas in the Gaza Strip, the possibility of sending Arab troops to the West and the Gaza Strip in addition to political affiliations and other issues.

The sample included 1865 persons whose age group is 18 and above and who have the right to vote. The enclosed questionnaire was distributed on 865 persons from the West Bank and 500 persons from the Gaza Strip. The sample was drawn randomly and the margin of error is about $\pm 3\%$; still 3.8% of the members of the sample refused to answer the questionnaire.

The opinions represented in the results reflect those of the study; they do not, by any means, represent the opinion of An-Najah National University.
